

SERVICES TO ENSURE A SAFE & EFFICIENT RETURN TO THE OFFICE

“The office must immediately be made safe, but also more resilient and more adaptive to the changes we can only imagine as competition intensifies in a post-COVID world.” – Jim Keane (President & CEO | Steelcase, Inc.)

At GOP, we specialize in helping clients create spaces that **attract** and **engage** top talent, while **supporting** the creative process and the need for head's down work.

Our team is focusing on helping executives mitigate risk as they make plans to bring back their employees to the office safely and/or shift to more permanent at home work. No matter which phase you are at in your return to the office, we can offer our expertise, research, and services to help make your return to the office both safe and efficient.

Our services include, but are not limited to:

DESIGN SERVICES

Taking into account three key strategies - density, geometry, and division - we take your current floorplan and make recommendations on how to retrofit your space for now or reconfigure it for the near future.

- Social Distancing
- Retrofitting
- Reconfigurations
- Current or New Space Repurposing
